

Abstract Management

Flexibility

- Highly configurable review process
- Automate obtaining confirmations from all authors & presenters
- Flexible rating options

Efficiency

- Automatically create sessions from Abstracts
- Link multiple abstracts to existing sessions

Abstract Book in MS Word

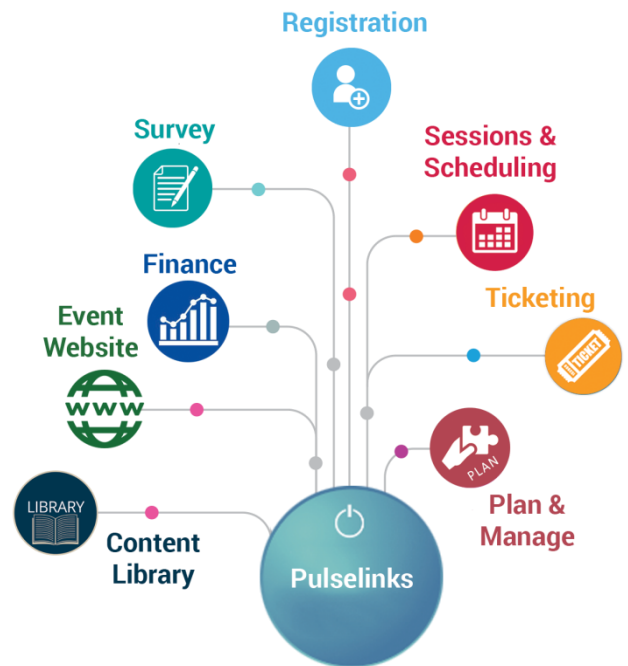

- Microsoft Word Abstract book template provides flexibility of presentation

The Pulselinks platform provides a number of unique & exceptional capabilities to control the collection of abstracts, manage the review cycle, publish the content and link the abstracts to sessions.

Abstract submission: Our submission tool allows setting limits on author numbers and the size of the text entries. The submitter can appoint other editors and readers for collaborative authoring. All authors can be invited to confirm participation (with tracking) – essential aid to data protection. The session type and topics can be used to modify the form and subsequent review routing.

Review and Publish: Fully configurable workflow with visual flow diagram. You can set conditions at each step to control actions and read access (blinding) for different user roles. Set one or more review criteria and report average scores for easy overview. Our Content Library allows the creation of Word templates to automatically generate a formatted Abstract Book.

what . where . when

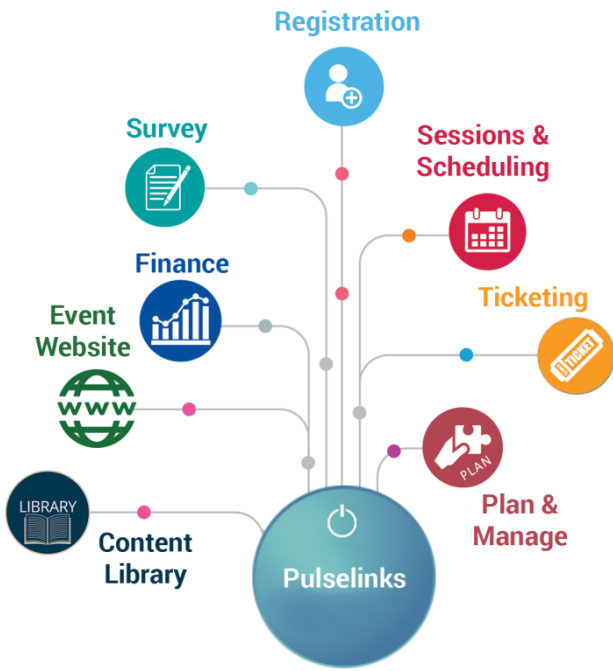

Abstract Processing at the next level

Control the Whole Process

- ✓ a full solution, from submission to creating formatted documents
- ✓ Manage the Abstract Lifecycle with a fully configurable workflow
- ✓ At each step set triggers to initiate emails or other actions
- ✓ Set rating criteria and track the progress

Simplify & reduce your workload

- ✓ Collaborative authoring for submitters – assign additional editors and readers
- ✓ Automated email notification for confirmation and actions
- ✓ Automate the creation of sessions from Abstracts

Abstract Management

Pulselinks creates an integrated environment for the collection and review of abstracts for your event, with a continuum from request to creation of sessions and publishing the abstracts

The powerful and configurable workflow engine enables the creation of processes for all your event types, and you can track progress all the way!

Confirmation of participation from all authors is essential to reduce late withdrawal and to aid compliant with data protection.
